PLANS, PROGRAMMES AND PROJECTS FOR THE PRESERVATION AND ENHANCEMENT OF THE PO RIVER IN PIEDMONT (ITALY). 1987-2010

START OF PLANNING PROCESS	1987
NUMBER OF COMMUNES INVOLVED	85
PROJECT AREA ENLARGED STRIP	2.000 KM <sup>2</sup>
PROJECT AREA RESTRICTED STRIP	475 KM <sup>2</sup>

A coordinated set of programmes, plans and projects developed since 1987 in order to preserve and enhance the Po river and floodplains, as a basic resource for the regional social and economic sustainable development. It includes the first proposal of *Progetto Po* by IRES (Istituto Ricerche Economiche e Sociali, 1989), the *Progetto Territoriale Operativo* by Regione Piemonte (1995), the *Piano d'area* of the Po river regional Park (1995), referring to the whole fluvial strip in Piedmont. The set contains a growing number of projects for specific critical areas, relevant for the requalification and transformation of the river strip.
